

Natural Law Core Foundational Principles of Truth as a Basis for Living evolveconsciousness.org

Foundational Basis, Root Causal Factors for Choices, Actions, Behaviors, Living & Being
 How we create our overall collective conditions through what we accept into ourselves.
 The strength, solidity, integrity, quality & groundedness of actions in Truth, Love, Good, etc.

Truth Level 1: What 'is' or has manifested in reality; what is existing or has existed.
 Truth Level 2: The Way of living in Truth, Love, Good, Right, Morality, Natural Law, True Self, Higher Self, Higher Will, etc.

Less solid of a foundational basis. Less interconnections and correspondences created, less of the big picture, less right-action engaged in. More areas built in or on top of faulty foundational axioms.

Axioms and foundational basis for living is less integrated and connected.

- Foundational understanding based in Truth, Right, Good, etc.
- Foundational understanding based in falsity, lies, deceptions, illusions
- Secondary layer conceptual blocks, actions, and ways of living based on primary core foundational axioms

More solid and complete understanding of core foundational principles of Truth. More interconnections and correspondences created, seeing more of the big picture, more right-action engaged in throughout life. Less areas built in or on top of faulty foundational axioms.

Axioms and foundational basis for living is more integrated and connected.

Root Causal Factors, Foundational Core Principles of Truth or Axioms of false belief accepted and bought into. Secondary conceptual blocks and subjects that are constructed in negative knowledge axioms will produce negative wrong-action resulting in more suffering and harm.

Columns of Conceptual Content Blocks are particular aspects of Truth, a quality amount of conscious awareness, and is connected with other concept blocks and columns to form a holistic big-picture understanding.

Secondary concepts are built upon primary foundations. Choices, actions & behaviors that we create are a result of various accurate or faulty understandings, perceptions, conceptions and navigations in reality, existence and universe.

The Wisdom of Right-Action in the world, based on understanding Natural Law and embodying it or not.

For example, understanding what has a right to life and the fruits of it's labor & property (animals), & what are violations to it's rights. The Sacred Feminine non-violence, do no harm, ahimsa, is a principle of Truth, Love, Good, Right, etc. that has levels to it's application & embodiment according to our own level of consciousness & spirituality.

Natural Law Core Foundational Principles of Truth as a Basis for Living evolveconsciousness.org

Foundational Basis for Being, living our lives and the way we choose to be. The Root Causal Factors for the condition of the world: a Foundational Core built on Principles of Truth or Axioms of false belief accepted and bought into

3 major aspects to look at:
 - base foundation of true or false core units
 - secondary units built on top in strength or weakness
 - the top of foundation also serves as a zero-marker for identifying if the secondary unit is built on more or less accurate perceptions of reality; above or directly into negative knowledge and falsity.

Hovering over a negative zone means not having directly built into the negative knowledge. The category of knowledge accumulated in that column or subject is not one founded upon a false foundation or premise. The blocks that are above the negative knowledge are connected to other parts of accurate knowledge based in known and accepted foundational principles of Truth. Principles of Truth are being used as the foundation to support the adjacent block and the choices, actions and behaviors that result from their acceptance. The block or connected concepts above a negative foundational basis are missing core understandings, pieces of the big picture, great pattern, yet obtained positive, right, good and true knowledge to create aspects of right-action.

Content 1 & 2 are at the same level & correspond in understanding to content 3 & 4 which are both lower in a level of accumulated knowledge, and are also concepts that are into negative knowledge, meaning they are erroneous beliefs accepted as truths, founded upon the more basic core aspects that are false.

Truth Level 1: What 'is' or has manifested in reality; what is existing or has existed.
 Truth Level 2: The Way of living in Truth, Love, Good, Right, Morality, Natural Law, True Self, Higher Self, Higher Will, etc.

Secondary conceptual blocks are made of several secondary concepts. Some particular concepts are founded in a faulty basis, being constructed over negative knowledge of the red blocks.

Secondary level understandings are based on the foundational core principles. If your additional conceptual construct and basis of knowledge for understanding reality is built on top of faulty red blocks that are empty of Truth, then you either have a structure built on a weak foundation of understanding in order to support its conclusion or you have built, not only on top, but into the negative zone. Building into the negative faulty knowledge and understanding of reality we make your constructs about reality and yourself sub-merged into negative knowledge to produce negative results of wrong-action.

The overall strength of the foundation for living life and building secondary understandings is determined by the refinement, clarity, quality, definition, integration, coherence, non-contradiction, non-conflict, non-oppositional, accurate, correct, optimal, right, good or true basis of our core foundational principle axioms.

Axioms and foundational basis for living is less integrated and connected. Foundation for being.

Axioms and foundational basis for living is more integrated and connected. Foundation for being.

We ask questions in life on what to do, how to behave, what actions to engage in, and contrarily what not to do. Right-action produces right results. Wrong-action produces wrong results. Our world is a reflection of the manifestations of action and behavior each of the individuated units of consciousness choose to generate. All of our actions to live in the world collect into an aggregate critical mass of behavioral mechanisms and ways of living. What we accept as true, right and good ways of conducting ourselves with respect to the other components in reality, universe and existence is what determines the world and secondary reality that we actively generate by our behaviors and choices in life.

It's all based on the core aspects of information and knowledge you have taken in that is represented by the different colored blocks that make up the foundational basis for living life. We build other understandings upon these core principle blocks that form our foundation for living. These can be accurate, correct, right, good and true pieces of data to build your dataset or datapool, the blue blocks. They can also be inaccurate, incorrect, wrong, bad and false aspects of understanding taken as truth, the red squares. They are bought into as valid methods of behaving in and thinking about reality, our worldview, and our self-image or concept of self that we have constructed so far by living amongst the variability, multiplicity and diversity in this universe, reality and existence.

If we have a faulty foundational basis for living our lives, then we will not be creating a world we want to live in through our choices, actions and behaviors. We will have accepted and bought into false axioms of belief. These erroneous beliefs are based on lies, deceptions and illusions. We continue to create results that are not in alignment, harmony, unity, integration, and cohesion with what is right, good and true, with Universal Cosmic Spiritual Natural Moral Law. The quality of the information and knowledge we intake will output as a method of living in the world in degrees, grades and levels of alignment and embodiment with optimal core foundational principles of truth based in Natural Moral Law. What we input is what we output, and what we output is what we get back as an aggregate qualitative effect of everyone combined. Cause and effect. Reaping what is sowed. This is how it works on the mass scale. Each individuated unit is a part of the whole that is created. As each unit changes, and more units share core foundational principles in common, the greater the potential for the overall condition of the world to be based on those solid, accurate, correct, right, good and true foundations. The greater each unit aligns with core foundational principles of Natural Moral Law, the greater the potential unity and strength of relationships to be built. A commonality in understanding important truths and values to live by will build that type of future. Those that perpetuate and participate in direct violations of Natural Moral Law are participating in creating more wrongdoings in the world.

Natural Law Core Foundational Principles of Truth as a Basis for Living

additional images to understand how it works

A faulty foundational understanding will produce a faulty output result in the end. If we fail to embody core principles of truth, our results will never be good enough because problems and effects will manifest that we don't want. We need to let go of attachment to false beliefs that are used as a foundational basis for our ego-personality-identity construct and ways of living.

The values and understanding of how to live in Natural Law is correlated with the amount of truth vs falsity embodied and acted upon to live and create that life.

Constructed, current Way of Living based on accepted foundational axioms

Lies, deceptions, manipulations, mind control, illusions & bullshit, all eat away at our efforts to truly create freedom, peace, harmony, and prosperity. We need to live from a solid core foundational basis built upon principles of Truth.

Eventually, weight of lies and evil wrongdoings will collapse the house of cards built on flawed and faulty foundational basis of corrupted understanding. Even if only 1 core foundational principle is based in wrong and evil, it's still 1 thing that will lead to manifesting a wrong way of living and continue to perpetuate more suffering.
