Real spirituality is morality. Your spirit, soul, self & character is defined by what you do with what you know about reality and self/consciousness, your behavior reflecting who you are.

"SPIRIT"-ESSENCE-NATURE OF LIFE, FROM THE POWER OF OUR HANDS & ARMS, AS ACTIONS & DEEDS

Ka/Kau - Bull/Cow. Power, strength, fertility. Power of action in the world to create from consciousness, self, soul, spirit, essence, etc. of who we are. Aspiring & rising up to higher consciousness.

Living as mind/heart in higher air consciousness. Karma/kamma, ka-maat, the maat of our ka-spirit.

Future rewards/coonsequences based on past actions i.e. Truth or Consequence. This is True Balance, a scale, comparison, to bring us into balance with Natural Law Truth & Justice.
1 drop of evil weighs down our existence, with dire results. Goal = Freedom from Evil & negative results we create, not false balance accomodation with evil.

Feminine Body Symbol, Two Triangles.
Rta • Cosmic Order, Universal Law that establishes Good arrangement.

Dharma • Behavior in accord, alignment, harmony & unity with Rta.
  • duties, rights, laws, conduct, virtues, “right way of living”
  • purification, moral transformation, path of righteousness

Rta, rota, rotation, rotary - “to run, roll” (car, chariot)
Vedic Rta (Sanskrit rtam "that which is properly joined; order, rule; truth").

Karma, karman, kamma: "to do, make, perform, accomplish, cause, effect, prepare, undertake". Root kr (kri), as in the word Sanskrit, to imply a language that is "well made". Making/doing properly/correctly,

Karma is related to the verbal proto-Indo-European root *kwer- "to make, form"; also *kwer- “roll, circle, round” as L/R interchange; *kwel- (1) "wheel, twist, turn", *kwele-, "to roll, to move around". Cycle is from kw(e)-kwI-o-. kw(e)-kwI-o-, kkl, ccl, CyCLE.

Related to *kwer- as “circle, round”, there is also PIE *(s)ker- (3) "to turn, bend". Circle & circus are from kirkos, PIE *kirk-, with root of *(s)ker-. Relations between turn, bend, circus, ring, circle, wheel, twist, rotation.

Rta > Dharma > Karma; Generation in Time; our Fortune, Fate, Destiny. Rta as universal (whole) cosmic order (good arrangement).

Wheel, Cycle, Circle, Circus, Rotation, Chakra, Order, Cosmic, Universal. Time, Cycle, Orobouros, Infinity, X, Cross, Elements, Generation, Life.
Ru/rw - mouth, gate, womb, uterus, outlet, birth
Ru with feminine ‘t’ is rut, route, road, rota.
Ru is by extension door, circle, passage, street, cell, fold, boundary.
Ru, rue, road, path, way, track, trek, trail, trace.

transition to another “plane” or “level” of consciousness, higher, realer,
truer life & consciousness i.e. Evolve Consciousness here & now.

Tau + Ru = Ankh = Life, Breath of Life; Way, Path, Road, through the mouth,
ovum, uterus, gate, and gateway to rebirth, resurrection, awakening,
graduating from lower towards higher consciousness, towards more
conscious awareness of reality, truth.

Dao/Tao: way, path, route, “harmonize one's will with Nature”

PIE drogh, dhorg, Hebrew drg, Arabic trq:
"track, path, way, way of doing things";
From our desires, we can care & choose the Right-Hand path & way of righteousness, truth, good, justice; or we can choose the Left-Hand path and way of wickedness, foolishness & falsity.

We desire and care to do certain things, we think about how to do them, and we then generate through those thoughts and desires to produce actions, deeds and behaviors.
Reality is a result of the consequences to our actions and deeds that are generated by our thoughts and desires.

“Wheel of Time/Dharma” cycle we create from past actions in reality, turned by desires, thoughts, deeds, results. Cause and Effect system, like Trinity of Consciousness.

Nature/essence/spirit of deeds is morality, which regulates the nature & quality of life and reality according to principles of maat, truth, justice, order, etc. Truth or consequences. Be right or go wrong. Ka-maa, kamma, karma.

Scales of Maat, in Duat Underworld. Deeds and consequences/rewards from desire/care/heart weighed against Truth. Determine afterlife, the world we remake by changing.

“Wheel of Time/Dharma/Law/Karma” cycle we create from past actions in reality, turned by desires, thoughts, deeds, results. 4 Elements are the base for us to generate reality. Dharma “law, right, justice”. Root *dher- “firm, holds, supports” i.e. foundation, mound, pillar. Same root as True/Truth (deru), solid, unwavering.

Great Mother Ta-urt, Ta-rut, Milk Way, Orobouros cycle Cow goddess, path, way, road, ru, mouth and then womb for rebirth. The rut, rta, rota, rotation of the chariot carrying the Sun along its path as it turns, to bear and bring forth the Sun into resurrection and renewed afterlife. Tarut/Tawaret/Thaouris. Tarut(h) > tarot. Trw (tru), taru. Thaouris > Taourus > Taurus (Tau-Ru) > Ankh. Life, fertility, Osiris, Underworld (Taurus, Tartarus), Resurrection.

Zodiac, astrology, Wheel of Time, Fortune, Fate, Destiny. Dharma, Rta, Rota, “chariot” (of the gods), “solar bark” travelling through night sky of Milky Way, through the cow Mother Goddess. Ru (mouth, womb), the oval from the Ankh, is where the Spirit of “Good” is, in the air, sky, sun, symbolizing higher consciousness, transformation, apotheosis. Ru is the rue, road, path, way to “heaven” above. The Wheel is the Way/Path for the chariot, the solar bark, to embark into the “Afterlife” and “Immortality”.

Wheel-Rta of Time/Fortune/Fate/Destiny/Dharma/Karma/Life. Boundaries of Behavior for Living in the Right Path/Way.

Cause/Effect > thoughts & desires/cares leading to deeds/actions.
"The Foreleg", Big Dipper; Bull of Heaven in the Epic of Gilgamesh

Dwn-'nwy stabs Mšhtyw

Taurus, another Bull of the heavens, has 7 famous stars as well, the Pleiades
Ideogram, or determinative—"thigh", "arm" 'khepesh', (h)pš)

Offered as "thigh-forward", "meat" [edit]

One of the major iconographic uses in Ancient Egypt of the ox-foreleg was as part of the food offering to the individual being honored (the deceased), and engraved upon their steles. Often, besides lying on top of the pile of food offerings, it is shown being presented to the honored individual, thigh first.

Offered as "hoof-forward", "strength"

Iconographically used as the symbolism of strength, power, dominion.

Egyptian hieroglyph: Khopesh sword, scimitar: determinative of sickle shaped sword (khepesh).

Khopesh

A bladed weapon of the Egyptians and Canaanites. The Khopesh refers to a straight forward description, while if evolved from the ox it functioned more like a sword with it's ability to slash. The Khopesh was comprised of a handle and unsharpened back that supported a crescent shaped blade.
AGGREGATE SOWING AND REAPING
We're all in this together. Our actions affect others and their actions affect us.
As one suffers we all suffer. As we and others sow, so shall we and others reap.
Natural Law Cause and Effect Field, Force or Web, of Behavior, Actions and Deeds, as an interaction with the forces, events, phenomena, etc. at play, in the pattern/fabric of reality.
Causality, Cycle, Loop, Feedback, Recursive Symbolism

Output feeds Input
Orobouros
Infinity

\[ i = i + 1 \]

Output feeds back as input to be processed again as output for more input.
Generator feeds generation, generated feeds generator to feed more generation.

Cause > Effect generates Affect
\[ \text{Cause} = \text{Affect from Effect} \]
\[ \text{Cause} > \text{Effect generates Affect} \]
\[ \text{Cause} = \text{Affect from Effect} \]

The causal force is an effect that potentially affects another, as input stimulus, as a causal force, to then generate another causal force as a response.

Cycle, loops, iterations allow smaller & easier representation than new representations each time. All time references from the second to the year is a loop, cycle, etc. Inventing a new name for each day, or each second being of different length is not useful.

Math and numbers are part of the base programming of nature. Abstract numbers are infinitely precise, with infinite information, ex: pi, phi. Physical measurements are finite. A computer program, reality and nature have limited precision of numbers for measurement. The ideal infinite numbers can only be measured to a limited degree of precision.

Free will is not required to develop growth and symmetry, phi ratio, pi, etc., it is biological programming. Free will expresses thought, emotion and action through the beings capable of doing so at varying degrees, as animals are.
